

Discover the *force* of the Whole™

Cinnamon is known for its ability to help the body retain healthy blood sugar levels, and helps maintain normal blood glucose following a meal.* Cinnamon's strong antioxidant action helps neutralize free radicals in the body and protects cells from damage.* We use a whole-food approach to deliver a broad spectrum of Cinnamon's beneficial compounds, matching Nature's true profile by extracting the whole bark using both supercritical and traditional methods. Cinnamon Force™ has an improved, 100% vegetarian capsule. It keeps the herbs pure & potent and dissolves quickly so the herbs are rapidly available for absorption.

Full-Spectrum Extraction: Our Difference

Many companies isolate elements from an herb, concentrate them, and label it "whole herb." New Chapter® delivers the wisdom of *whole food*. Using only supercritical CO₂ or traditional techniques of extraction, our Force extracts offer a broad spectrum of beneficial phytonutrients in their natural profile.
