INFORMATION PER SERVING**

1280 CALORIES

Are calories essential to gaining muscle?

Yes. Especially for those with hypermetabolism or who find it difficult to eat enough quality calories throughout the day. Calories are essential to gaining and sustaining muscle mass because they provide your body the fuel for muscle growth. Without enough calories, your body will use muscle for fuel during periods of inactivity.

52 a PROTEIN

PROTEIN
52g

2:1 RATIO

Advanced Protein Blend.
Muscles are composed of protein and it should go without saying that consuming quality protein throughout the day is an important component in achieving your muscle mass goals. Super Mass Gainer contains a blend of high-quality slow and fast-digesting proteins to feed your muscles quickly.

 $\frac{1}{10.9} \approx 10.9 \text{ g BCAAs}$

LEUCINE
9.2g ← Why Leucine?
Leucine is the BCAA that is
important to Muscle Protein
Synthesis.
