

Once daily **ellura**<sup>®</sup> starts working within hours to encourage your body's natural flushing function and to help maintain a clean urinary tract.\* ellura contains 36 mg of proanthocyanidins (PAC), a clinically proven and safe, bioactive ingredient extracted only from the juice concentrate of the American cranberry. (measured by the globally recognized DMAC/A2 method)

## Directions

- ▶ **To maintain a clean urinary tract\***: Take 1 capsule daily with water about the same time each day. For additional support when needed, take 2 capsules daily for 2 consecutive days, then return to once daily.
- ▶ **With sexual intercourse**: Take 2 capsules with water before or immediately after intercourse. Then take 2 capsules the following day.

CAUTION: Consult physician before use if you have a red fruit allergy.
