

SUBSTANTIATED EFFECTS

NOxygen® is a stimulant-free preworkout additive designed to create an oxygen-sparing environment through enhancing vasodilation and blood flow with NO3-T® sodium nitrate while simultaneously volumizing muscle cells and increasing lean body mass (LBM) with HydroMax® water-soluble glycine. NOxygen® is perfect for both strength and endurance athletes.

NOxygen® usage: Add one to two servings to your preworkout beverage 15-30 minutes before training for maximum blood and oxygen delivery. For endurance training, mix with your intraworkout or hydration beverage and consume throughout training.

WARNING: NOxygen® is intended only for healthy adults above the age of 18. All individuals should consult a licensed healthcare practitioner before using this product. Do not use this product if you have been diagnosed with or have a family history of (including, but not limited to) heart disease, thyroid disease, liver disease, diabetes, asthma, Epilepsy, glaucoma, hypotension, reflex, diabetes, hypoglycemia, hyperlipidemia, asthma, any psychiatric condition including depression or bipolar disorder, or if you are using any other dietary supplement, prescription drug, or over-the-counter drug intended to promote vasodilation, in particular those intended for erectile dysfunction. The combined use of vasodilatory supplements or drugs and NOxygen® could cause an unsafe drop in blood pressure. Discontinue use and consult a medical doctor immediately if you experience an irregular or rapid heart beat, chest pain, shortness of breath, dizziness, lightheadedness, tingling or numbness, nausea, headache, blurred, or other similar symptoms. If you are a performance athlete and/or subject to drug testing, please review compliance with your regulatory body prior to use.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
