

NATURAL MANHANCEMENT†

An unfortunate side effect of aging in males is our natural testosterone production continually declines as the years pass. Once thought to be irreversible, recent studies have shown that a combination of D-aspartic acid and several cofactors can increase free testosterone production led to advancing age. D-Pol® combines this research and a powerful vasodilator in NOS-T® dietary nitrates to facilitate a boost in the gym and in the bedroom.

D-Pol® usage: Take 1 serving with a mixed food meal prior to intense exercise. Optionally, take 1 serving with preworkout to maximize exercise efficiency alongside testosterone elevation.

WARNING: D-Pol® is intended only for healthy male adults above the age of 18. All individuals should consult a licensed healthcare practitioner before using this product. Do not use this product if you have been diagnosed with or have a family history of (including, but not limited to): heart disease, thyroid disease, liver disease, cancer, Benign's Prostatic Hyperplasia, gastroesophageal reflux, diabetes, hypoglycemia, type/hypertension, asthma, any psychiatric condition including depression or seizure disorder, or if you are using any other dietary supplement, prescription drug, or over-the-counter drug intended to promote vasodilation, in particular those intended for erectile dysfunction. The combined use of vasodilatory supplements or drugs and D-Pol® could cause an unsafe drop in blood pressure. Discontinue use and contact a medical doctor immediately if you experience an irregular or rapid heart beat, chest pain, shortness of breath, dizziness, lightheadedness, lightheadedness, fainting or presyncope, tremors, headache, nausea, or other similar symptoms.
