

Directions: Take one or more capsules daily with or without meals.

ChagaMax is the power of wild, raw chaga mushroom fortified with wild, raw birch bark and organic wild oregano. This combination creates immense synergy and potency plus physical strength and stamina.* ChagaMax is the top source of key substances needed for human health: plant sterols and antioxidants.* Chaga is the richest source of the all-important enzyme superoxide dismutase (SOD), plus it is a source of beta glucan and B vitamins. Testing shows that the superoxide radical-quenching power of ChagaMax is extremely high.* The wild oregano greatly fortifies the chaga. Take ChagaMax capsules daily, and feel the wild, raw difference.
