

Prebiotics are to probiotics what fertilizer is to a garden; they are the specific fibers that nourish your healthy bacteria and help them "set up shop" and thrive within your digestive tract.*

Nurturing the right balance of microbes in your digestive tract through prebiotic foods promotes optimal digestive and immune function, discourages the growth of unfriendly bacteria and yeasts, increases energy levels and metabolism, promotes your ideal body weight and blood sugar levels, and even supports brain function and mental clarity.*

The problem? Incorporating enough of these critical foods into your diet can be extremely difficult. That's why we've combined powerful food-based (nothing synthetic here!) prebiotic fibers from Acacia, Jerusalem Artichoke and Green Bananas into a simple, daily spoonful of goodness.*

Hyperbiotics Organic Prebiotic Blend is the ideal mix of inulin, FOS, resistant starch and soluble dietary fiber designed to reinforce your gut barrier by promoting the growth of good bacteria and reducing gut permeability, benefiting nearly every aspect of your health.*

Note: As with any dietary supplement, consult your healthcare professional. Do not use if tamper-evident seal is broken or missing. Keep out of reach of children.

*Daily Value not established

Certified Organic by QAI.

Not manufactured with gluten, wheat, soy, dairy, nuts, eggs or shellfish.

Packaged in a GMP facility that may handle these ingredients.

Please note: The introduction of prebiotic fibers into a fiber-deficient diet may temporarily cause mild gas, bloating or discomfort. These possible side effects are rare and vary from one person to another. We recommend you start with only one scoop per day, and if you experience any digestive upset, reduce to a half a scoop until your body acclimates.

*With US and Worldwide Ingredients

**Organic, Vegan & Non-GMO; Free of Gluten, Soy, Wheat, Psyllium and Dairy.
No Preservatives, Added Sugar, Artificial Colors or Flavors.**
