

If you're like millions of Americans, you experience episodic digestion upsets, such as occasional constipation and diarrhea, gas, and bloating. But the good news is, digestive troubles are not inevitable! They are often simply due to a lack of beneficial bacteria (or probiotics).

ProbioPure™ features a proprietary strain of *Bifidobacterium longum* – Morinaga BB536® – which is one of the world's most researched and effective probiotic strains. Numerous published human clinical trials have shown that BB536:

- Provides a natural defense against episodic digestive upsets.*
- Improves the body's ratio of beneficial bacteria.*
- Decreases ammonia and putrefactive products in the digestive tract.*
