

Powerful 5-in-1 Post-Workout Creatine & BCAA Formula
CELL-TECH™ HYPER-BUILD™ is the brand-new advanced post-workout from MuscleTech®. It's the ultimate 5-in-1 formula:

1. Creatine Formula
2. Recovery Formula
3. BCAA/Amino Powder
4. Endurance Powder
5. Electrolyte Drink

Improved Muscular ATP Regeneration

Your muscles' primary source of energy is adenosine triphosphate (ATP). As you train, your ATP levels deplete, causing your muscles to fatigue. Each serving of CELL-TECH™ HYPER-BUILD™ delivers a scientifically studied 5g dose of creatine, which enhances your body's ability to regenerate ATP, so your muscles keep firing on all cylinders. With better workouts come better results. CELL-TECH™ HYPER-BUILD™ will saturate your muscles with creatine, so you can gain more muscle size and strength.*

Hultman et al., 1996. *Journal of Applied Physiology*. 81(1):232-237.
Bulford et al., 2007. *Journal of the International Society of Sports Nutrition*. 4:4.

Increased Muscle Size & Strength

Every scoop of CELL-TECH™ HYPER-BUILD™ contains 6g of BCAAs in an optimized 4:1:1 ratio for maximum leucine delivery. Leucine is the most powerful of all amino acids at amplifying protein synthesis and keeping your body anabolic. In fact, the 4g dose found in CELL-TECH™ HYPER-BUILD™ has been scientifically shown to increase max strength by over 40% in just 12 weeks! Not only does CELL-TECH™ HYPER-BUILD™ deliver more BCAAs than any other creatine formula, it has more than most BCAA formulas too.*

Isapoglou et al., 2011. *International Journal of Sports Physiology and Performance*. 6(1):38-50.

Enhanced Muscle Recovery Between Sets

CELL-TECH™ HYPER-BUILD™ has an advanced combination of ingredients to help your muscles recover between sets, so you can power through your most intense workouts. It is also the only creatine formula to feature tart cherry.*

Boost Endurance Performance with First Dose

The dose of taurine found in one scoop of CELL-TECH™ HYPER-BUILD™ is clinically shown to improve performance in endurance athletes when taken prior to training. And for those intense workouts, CELL-TECH™ HYPER-BUILD™ is also enhanced with electrolytes to help you replace what is lost during exercise.*

Balshaw et al., 2013. *Amino Acids*. 2013. 44(2):555-561.
