

Directions: Stir or blend two scoops (44.3 g) into 10-12 ounces of cold water or as directed by your healthcare practitioner. To increase sweetness, use less water. To decrease sweetness, add more water.

Total Vegan® is a revolutionary plant protein blend featuring 5 hypoallergenic, vegan protein sources – pea, rice, hemp, chia and cranberry – to provide a well-balanced amino acid profile in a high protein formula. In addition to the well-rounded protein profile, Total Vegan® features many unique ingredients to support the immune system, the digestive system, body composition, bone health and detoxification.* Pea and rice protein provide a branch chain amino acid profile that is comparable to whey protein, providing high amounts of cysteine, lysine and methionine. This formula contains three additional protein sources, each with unique properties: organic hemp protein, which is rich in edestin that can stimulate antibody production; chia protein, which is desired by athletes for its endurance boosting properties and promotes hydration and a sense of fullness; and cranberry fruit protein, which has urinary tract and antioxidant benefits.* L-glutamine and L-tyrosine are added to Total Vegan® to support an increase in lean muscle mass.* Total Vegan® contains Aminogen®, a patented plant-derived enzyme blend, which helps the body break down and absorb more amino acids from protein.* It is clinically proven to release 100% more plasma amino acids, 250% more branched-chain amino acids and boost nitrogen retention by 32%.*

NuMedica's patented BrocCollinate® offers high amounts of sulforaphane glucosinolate† and is provided along with calcium D-glucate to offer powerful phase II detoxification support.* Therapeutic doses of suma root and arabinogalactans are provided for digestive and immune system support.* Suma root has powerful adaptogenic qualities that aid the body's ability to resist physical, biological and emotional stressors.* For optimal weight management, Medium Chain Triglycerides (MCT's) are included for their ability to promote thermogenesis in the body and thereby contribute to an enhanced metabolism.* AlgaeCal® is a high quality, all-natural, ocean algae – an excellent wholefood source of plant based calcium, magnesium and many bone supporting trace minerals.* Clinical studies show the unique properties of AlgaeCal® support the growth of bone.*

Total Vegan® has only 6 net carbohydrates and has a high (4:1) protein to net carbohydrate ratio, making it ideal for those with high protein and low carbohydrate needs.* This 4:1 ratio makes Total Vegan® compatible with NuMedica's hc3 Trim™ Lifestyle Program. Net carbs are those which impact blood sugar levels. Net carbs are calculated by subtracting non-impact carbs such as fiber and sugar alcohols (xylitol) from the total carbohydrate count.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Caution: Keep out of reach of children.

Storage: Keep tightly closed in a cool, dry place.

This Formula Meets or Exceeds cGMP Quality Standards.

Does not contain artificial colors, sweeteners or preservatives.
