

THE HARDEST HITTING NITRIC OXIDE PUMP AMPLIFIER

Ten years after reinventing the nitric oxide category with the most powerful pill of its kind, MuscleTech® is launching nanoX9® Next Gen. Its unique, powerful combination of ingredients, including an advanced nitric oxide booster, quickly disperses into your bloodstream when you need it most. Nitric oxide helps to relax blood vessels and cause rapid vasodilation, massive pumps, the most extreme muscle hardness and the freest vascularization with every rep! ▲

SCIENTIFICALLY DOSED KEY INGREDIENTS

Unlike the other guys who use an inferior dose of Nitrosigine®, nanoX9® Next Gen features a scientifically based dose. This advanced form of arginine nositol silicate is a highly effective form of arginine for increasing serum arginine levels. In fact, in a scientific study, subjects had a significant increase in mean arginine levels in just one hour. With more arginine in the blood, your body can make more nitric oxide. That's why, in the same study, subjects who supplemented with Nitrosigine® had significant increases in salivary nitrite levels – a key marker of nitric oxide production. With more nitric oxide, your blood vessels will pulsate with a rush of nutrient-rich blood, which carries oxygen, amino acids and naturally occurring anabolic compounds. nanoX9® Next Gen also features hawthorn and pomegranate, two ingredients being examined in pre-clinical and emerging studies for their effects on the nitric oxide pathway. ▲

POWERFUL PERFORMANCE & UNIQUE NEUROSENSORY EXPERIENCE

nanoX9® Next Gen is the only major nitric oxide pill to feature a powerful dose of beta-alanine, which has been connected to muscle performance and strength building in athletes. And, for a truly unique sensory experience, nanoX9® Next Gen features rhodiola, a powerful adaptogen that has been studied for its benefits on mental and physical fitness. ▲

SUPERIOR PUMPS, PERFORMANCE & SENSORY EFFECTS vs. THE COMPETITION

nanoX9® Next Gen is a superior nitric oxide powerhouse that also delivers the performance booster beta-alanine and unique sensory effects compared to the other guys. After your very first dose, you'll experience the craziest pumps, fullness and vascularity! Plus, since it's stimulant free, it can be stacked with any other MuscleTech® pre-workout or musclebuilder for the ultimate muscle pump, the most energy and your best workouts. ▲

	SUPERIOR PUMP	SUPPORTS MUSCLE	UNIQUE SENSORY
	1,500mg of Nitrosigine®	1,600mg of Beta-Alanine	Adaptogen & Neurotransmitter Precursor▲
COMPETITOR	750mg of Nitrosigine®	No Performance Boosters	No Sensory Blend

WARNING: For adult use only. Do not use if pregnant or nursing. Do not use if you have had a myocardial infarction (heart attack). Do not refrigerate. Consult a medical doctor before starting a diet or exercise program or if you have a medical condition. Some individuals may experience a harmless tingling sensation from the concentrated performance dose of beta-alanine. May cause flushing and itching. **KEEP OUT OF REACH OF CHILDREN.**

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F). Distributed by Iovate Health Sciences USA, Inc., 1105 North Market Street, Suite 1330, Wilmington, DE 19801. Made in the U.S.A. from international and domestic ingredients. © 2016. For lot no. and expiry date, see bottle. Caplet shown not actual size.
