Hardcore Testosterone Booster

The key ingredients in TEST HD® have been shown to significantly increase testosterone levels.▲ TEST HD® requires no cycling on and off, and is formulated with scientifically researched ingredients, such as shilajit and boron. TEST HD® also contains other well-known ingredients, including stinging nettle root, tribulus, safed musli and zinc.

• Boosts Free Testosterone in 7 Days

▲ TEST HD® is formulated with a concentrated and powerful dose of boron that is shown in human clinical research to increase free testosterone and decrease estradiol in just seven days. Free testosterone is the most active form of testosterone and is critical for initiating the musclebuilding process.▲

• Increases Total Testosterone

TEST HD® is the first hardcore testosterone booster to include a clinical-strength dose of shilajit, a rare organo-mineral compound obtained from steep rocks of different formations found in the Himalayas and other high mountains.

▲ This powerful test-boosting compound is shown in a human clinical study to significantly increase total serum testosterone levels as documented after 90 days.▲

Not intended to treat low testosterone or sexual dysfunction.

WARNING: For adult use only. This product is not intended for use by those with a serious medical condition. Do not use if pregnant or nursing. Consult your family physician before use if you have a medical condition or before starting any diet or exercise program. **KEEP OUT OF REACH OF CHILDREN.**

Do not use if packaging has been tampered with. Store in a cool, dry place (60°F to 80°F).

The same shilajit ingredient is studied and documented to boost ATP blood levels/concentration in just 15 days. ATP is the cellular energy used by the body and is real energy, unlike perceived energy that occurs with CNS stimulants.▲

• No PCT Required

This potent formula works with the body to naturally increase testosterone levels while staying within the normal healthy range.▲

• Get More for Your Money

Unlike the competition, Performance Series products contain superior key ingredients in clinically dosed amounts that are fully disclosed, so you know exactly what you are paying for.
