

Suggested usage: 1 capsule 1–3 times per day or as directed by a health professional.
Cautions: As with any supplement, consult your health professional before use if you are pregnant, breastfeeding, or trying to conceive, or if you are taking medication, have a medical condition, or anticipate a surgery. Keep out of the reach of children.

Thiamin (vitamin B1) is a water soluble vitamin that supports glucose metabolism and normal growth and development.* Natural Factors BioCoenzymated formula contains a specialized combination of benfotiamine and thiamine diphosphate which are coenzyme forms of vitamin B1. Taking benfotiamine and thiamine diphosphate allows for greater absorption and bioavailability than non-coenzyme forms. Benfotiamine is fat soluble which allows it to cross cell membranes. Furthermore, it stimulates transketolase, the enzyme essential for maintaining normal glucose metabolic pathways.* It also supports healthy nervous system function and helps protect the body's tissues against advanced glycation end products (AGEs).[†] Natural Factors BioCoenzymated Benfotiamine with thiamine diphosphate is truly the next generation B1.
Manufactured by Natural Factors to ensure safety and potency in accordance with Good Manufacturing Practices (GMP) of the FDA and Health Canada.

Contains no artificial colors, preservatives, or sweeteners; no dairy, starch, sugar, wheat, gluten, yeast, soy, egg, fish, shellfish, animal products, salt, tree nuts, or GMOs. Suitable for vegetarians/vegans. Sealed for your protection. Do not use if seal is broken. For freshness, store in a cool, dry place.

* This statement has not been evaluated by the Food and Drug Administration.
This product is not intended to diagnose, treat, cure, or prevent any disease.

Supplement Facts

Serving Size 1 Vegetarian Capsule

	Amount Per Serving	% Daily Value
Thiamin (thiamine diphosphate)	10 mg	833%
Benfotiamine	150 mg	**

** Daily Value not established.

Other ingredients: Microcrystalline cellulose, vegetarian capsule (carbohydrate gum [cellulose], purified water), Farm Fresh Factors™, magnesium stearate (vegetable grade), stearic acid.

Active Vegetables – organic kale, organic alfalfa, organic cilantro leaf, organic parsley, caperberry, sprouted garlic, organic artichoke, organic black radish, organic dandelion, barley grass, pepper, organic celery seed, organic beetroot, organic tomato; **Cruciferous Vegetables** – A broad spectrum of fully active glucosinolates and myrosinase enzymes from wasabi rhizome (*Wasabia japonica*) and fresh freeze-dried sprouted broccoli, organic upland cress, daikon, red radish, organic cauliflower, organic cabbage, organic arugula, organic watercress leaf; **Ultra Fruit Polyphenols** – grape, pomegranate, strawberry, organic blueberry, raspberry, bilberry, organic Indian gooseberry, schizandra berry, red orange, organic acai berry; **Herbals and Plants** – Theracurmin™ curcumin, organic decaffeinated green tea extract, organic ginger rhizome, organic echinacea, organic oregano, organic peppermint, organic spearmint; **Whole Plant Sea Vegetables** – organic spirulina, organic chlorella, red algae, blue green algae, kelp.

What does coenzymated mean?

In order for B vitamins to be utilized effectively by the body, they must be converted into their metabolically active coenzyme forms. For example, two coenzyme forms of thiamin are benfotiamine and thiamine diphosphate.

A coenzyme is a naturally occurring compound that partners with specific enzymes in order to help promote a number of beneficial metabolic reactions in the body. Without the coenzyme, the enzyme cannot promote the biochemical reaction that is responsible for our survival. This dual cooperation between coenzyme and enzyme is a process called coenzymated.

Taking B vitamins already in their coenzymated forms allows the body to use them directly. Thus, the amount that is needed by the body is less in order to achieve the same benefits. BioCoenzymated takes it one step further. Using our proprietary EnviroSimplex® technology, we've created a unique bioCoenzymated process using organic, farm fresh plant extracts from whole food sources and the coenzyme form of B vitamins.

The synergy between the phytochemicals found in these plant extracts and the coenzyme B vitamin optimizes absorption.

The results?
BioCoenzymated delivers the most metabolically active nutrients to your cells to utilize most effectively.

Feel the difference.
