

Modified Citrus Pectin Powder

Modified citrus pectin is prepared by a proprietary process, which reduces the molecular weight of the pectin molecule.
Average molecular weight: 30kD; pH: 6.0-7.2; Methylation: not more than 5%.

Suggested Use

As a dietary supplement, 5 to 15 grams daily: dissolve one rounded teaspoon (approx. 5 g) of powder in water, juice or other liquid, one to three times daily, or as directed by a healthcare practitioner.

NOTE: For easier mixing, place Modified Citrus Pectin Powder in a jar or shaker with desired liquid and shake.

CAUTION: Those on a sodium-restricted diet should consult their healthcare practitioner before use.

Variations in product color may occur. Keep in a cool, dry place, tightly capped.

Not labeled for sale in California.
