Traditional Nutritionals

DIATROL

SUGAR BALANCE COMPLEX

*Formulated to help normalize
blood-sugar levels.*

SUGGESTED USE

Take 3 capsules with breakfast and 3 capsules with dinner.

For superior results, take 12 capsules daily for at least 2 months or until fasting glucose level is under 120 mg/dl. Then reduce to 6 capsules daily for about 6 months. Some are then able to discontinue the formula totally, while others find that occasional use is best.

Tip: Helps to bind the sugar so you can reduce the spike after eating high glycemic foods.
