▲ These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

DIRECTIONS: Take one (1) capsule daily, preferably in between meals.

WARNING: Consult your healthcare provider prior to use if you are pregnant, nursing, taking any medication or have any medical conditions.

L-Glutamine is the single most abundant amino acid in the human body. It is involved in regulating protein synthesis and has been shown to possess powerful Anti-Catabolic properties to help preserve muscle. Intense exercise can deplete glutamine stores, however, supplemental glutamine is thought to replenish these stores allowing for enhanced recovery. ▲
