USAGE: As a dietary supplement, take 3 capsules daily with water. For best results, light exercise and a sensible diet are recommended. Use this product for no less than 8 weeks for maximum results.

PRECAUTIONS: Use only as directed. Do not take this product if you are pregnant or nursing. Consult a healthcare professional before use if you are allergic to any ingredients, have a serious medical condition, or use prescription medications. For adult use only.

In a man's brain, there is a complex chain of signals called the hypothalamic-pituitary-gonadal axis. The Testosterone produced in the testes is regulated by this chain. At the onset of puberty, there is a rapid increase in the production of Testosterone. But just as rapidly as it increases at puberty, Testosterone production begins to slow from the age of 30 onward. HighT™ has been clinically proven to boost free Testosterone levels leading to increased sexual libido, muscle mass and energy levels. This advanced formulation also includes Phytopin® and other essential nutrients to offer potent prostate support for men over 50. Phytopin® is guaranteed to be free of genetically modified plant substances and has been analytically tested to deliver a guaranteed dose of Beta-Sitosterol and other important Phytosterols for optimal prostate health.

These statements have not been evaluated by the FDA. This product is not intended to diagnose, treat, cure, or prevent any disease. Testofen® is a trademark of Gencor Nutrients, Inc. Phytopin® is a trademark of DoiCas Biotech, LLC
