

NUTRACEUTICAL FACTS:

PHYSIOLOGICAL BASIS: NITRAFLEX contains compounds that the results of both clinical *in vitro* and animal studies suggest unique properties that may significantly help advanced athletes maximize dramatic vascularity and reactive hyperemia (pumps) during their workouts. Also, to provide long-term support of testosterone and nitric oxide levels in the healthy range when used as directed. "Reactive hyperemia" describes the increase in muscle blood flow that occurs during high-intensity resistance exercise and produces the "pump" associated with increases in muscle size.*

UNIQUE PROPERTIES OF SOME OF THE KEY COMPOUNDS IN NITRAFLEX:

■ **EXTREME POTENCY***: NITRAFLEX Tablets are pure Nitraflex, the most advanced, ultra-modern nitric oxide vasodilator, now in a tablet form. Take NITRAFLEX for the ultimate in Nitric Oxide Performance Enhancement.

■ **HIGH CITRULLINE:ARGININE RATIO**: Arginine is a proven precursor to nitric oxide (NO), a vasodilator. What most people don't know is that arginine supplementation stimulates the activity of arginase, an enzyme that breaks down arginine. Over time, this may actually result in reduced arginine and NO levels, in turn causing your pre-workout formula to stop working. Research suggests that supplementing with a high ratio of citrulline to arginine may reduce this risk by avoiding overstimulation of arginase*.

■ **6 WEEKS OF TESTOSTERONE**: Calcium fructopyranose borate (CFB) has been shown to increase testosterone in healthy subjects*. The average increase in total and free testosterone in a 6-week study was 56% and 29.5%, respectively. In a second study, total and free testosterone increased only 3 hours after a single dose of CFB.

■ **EFFECTIVE DOSES OF BETA-ALANINE**: The clinically-proven performance enhancer beta-alanine was not "fairly dusted" in this formula. Rather, we added an exceptionally powerful dose that you will feel starting to work following your very first serving.

■ **CREATINE-FREE**: Creatine causes water retention, which can make achieving a dry, hard, muscular look even more difficult. Sometimes creatine is added to products precisely for this reason. (When you see yourself getting bloated, you may be fooled into thinking the product is "working.") We left it out of NITRAFLEX precisely for this reason.

■ **COGNITIVE ENHANCERS**: NITRAFLEX contains unique ratios of scientifically validated compounds that help you remain alert, intense and focused while you're flying from set to set with veins fully dilated and muscles pumped to the extreme.

Six Nitraflex Tablets contain L-Citrulline Malate and A-ARG (Alpha-ketoglutarate) in a precise 3:1 Ratio, 250 MG DMAE, 1500 MG of Beta-Alanine, and a clinical dose of CFB.

NITRAFLEX™ HYPEREMIA & TESTOSTERONE ENHANCING TABS (Clinically-Studied CFB & Vasoactive Compounds*)

HIGHEST POTENCY | LESS WATER RETENTION

Scientifically formulated by and manufactured exclusively for:

GAT/German American Technologies

64 Sunnyside Ave Fl 2, Stamford, CT 06902 USA

Technical support: 203.325.8567 www.TeamGAT.com

Dietary Supplement 180 Tablets

STIMULANT-FREE TABLETS
WITH NITRAFLEX NUTRIENT PARTITIONING COMPLEX
FOR ALL-DAY USE OR STACKING

FORMULATED FOR ORAL ADMINISTRATION

* The statements on this label have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

NGTC-GAT-073C

**MOST POTENT STACKABLE NOX TABLET! VASODILATION* TESTOSTERONE*
REACTIVE HYPEREMIA (MUSCLE PUMPS)* STRENGTH* FOCUS* HARDNESS***

SUPPLEMENT FACTS

Serving Size: 3 Tablets

Servings Per Container: 60

	Amount Per Serving	% DV
--	--------------------	------

NITRAFLEX PROPRIECEUTICAL BLEND 4058 mg **

Vasoactive Arginase-Regulating NO Precursor Complex
2-Amino-5-(carbamoylamino)pentanoic acid, (S)-2-Amino-5-guadinopentanoic acid, L-Arginine Alpha-ketoglutarate, (E)-5-(4-hydroxystyryl)benzene-1,3-diol, 4-[(E)-2-(3,5-dimethoxyphenyl)ethenyl]phenol

Acute Energy, Focus, Intensity & Endurance Complex
3-Aminopropanoic acid, 2-(Dimethylamino)ethanol, 2-acetylaminopentanoic acid, 2-(4-hydroxyphenyl)-propanoic acid, 2-Amino-4-(ethylcarbamoyl)butyric acid

Clinically-Studied Testosterone-Enhancing Complex
Calcium fructopyranose borate (CFB)

Proprietary Nitraflex Nutrient Partitioning Blend
(1S,3R,4R,5R)-3-[(3-{3,4-Dihydroxyphenyl}-1-oxo-2-propenyl)oxy]-1,4,5-trihydroxycyclohexanecarboxylic acid, 2 alpha-hydroxy ursolic acid, 1,2-dithiolane-3-pentanoic acid, Cinnamomum verum, Momordica charantia, Gymnema sylvestre

** Daily Value not established

Microcrystalline Cellulose, Dextrose, Sodium Starch Glycolate, Di-calcium Phosphate, Magnesium Stearate, Stearic Acid, FD&C Blue # 1, FD&C Yellow # 5, Titanium Dioxide

NITRAFLEX IS #1 FOR MAXIMIZED HYPEREMIA (PUMPS) & MUSCLE TORQUE

FEATURING AN ADVANCED, 6-PART NITRAFLEX NUTRIENT PARTITIONING BLEND:

A potent propieceutical blend designed to "open the floodgates", the uptake and storage of more nutrients, glycogen, and blood into the muscle cell. Phenomenal hyperemia and vasodilation attributes to *much fuller muscle pumps and performance...and super-human strength!*

WARNING: Before using Nitraflex, seek advice from a health care practitioner if you are unaware of your current health condition or have any pre-existing medical condition including but not limited to: high or low blood pressure, cardiac arrhythmia, stroke, heart, liver or thyroid disease, anxiety, depression, seizure disorder, psychiatric disease, diabetes, pernicious anemia, difficulty urinating due to prostate enlargement or if you are taking an MAO inhibitor or any other medication. Do not use if you are pregnant, nursing, prone to dehydration or exposed to excessive heat. Reduce or discontinue use if sleeplessness, tremors, dizziness, nervousness, headaches, or heart palpitations occur. Not intended for use by persons under the age of 18. **KEEP OUT OF THE REACH OF CHILDREN AND PETS**

Calcium fructopyranose borate is manufactured under US Patent #5,962,049 and licensed exclusively from VDF FutureCeuticals, Inc. Visit www.TeamGAT.com for more information.

RECOMMENDED DOSAGE

Under 200 Lbs: Take 3-4 tablets three times daily on an empty stomach (every day). Take the first 3-4 tablets in the morning at wake-up, the second 3-4 tablets before lunch, and the last 3-4 tablets before dinner.

Over 200 Lbs: Same as above but take 5-6 tablets, three times daily.

STACKING (SUPER INTENSE)

**MIXING NITRAFLEX TABLETS
WITH NITRAFLEX POWDER:**

Take (stack) 3-4 tablets of Nitraflex Tablets with one (1) level scoop of Nitraflex Powder 30 minutes before intense training for maximum effects. Stack Nitraflex tablets and powder with Protein, Muscle Martini, Testol, Fornatab, Jetfuse NOX, and JetMASS.

**STIMULANT-FREE
CREATINE-FREE
TAKE 3X DAILY**
