

Attack Your Workout With CREATTACK™

Nobody can argue that creatine delivers on its promise of increased strength. Building on creatines proven results F3™ Nutrition developed **CreAttack™** to go beyond that and deliver even greater results.

Studies show that creatine combined with beta-alanine delivers greater increases in strength plus delays in muscle fatigue. HMB added to creatine shows greater increases in strength and improved lean body mass in numerous clinical studies.*

CreAttack™ has added both beta-alanine and HMB to creatine, delivering one of the most potent anabolic activators on the market.

† Licensed under one or more of U.S. Pat. Nos. 5,965,596, 6,426,361 and 7,504,376, each of which is owned by Natural Alternatives International, Inc. (NAI). NAI is also the owner of the registered trademark CarnoSyn®.

Creapure® is a trademark of AlzChem Trostberg GmbH.

Nutritional uses of Calcium B-Hydroxy B-Methylbutyrate Monohydrate

HMB are licensed to F3™ Nutrition under U.S. Patent # 5,348,979 and # 6,103,764.

HMB is a registered trademark of Metabolic Technologies, Inc.
