3 capsules of Razzaadrene provides the same dose of Acacia shown in an IRB-approved, double-blind study to increase metabolic (fat-burning) rate for up to 3 hours.

The "Razzaadrene Burn" grabs you in moments and takes you on a smooth yet intensely stimulating ride through "neurotransmitter nirvana" while supporting your metabolism's ability to release stubborn body fat and burn it to yield performance-driving energy.*

Razzaadrene strategically aligns the lipolytic (fat-releasing) power of raspberry ketone with clinically studied Acacia rigidula, plus Saffron and a host of other nutraceutical compounds.* All have been carefully selected on the basis of their ability to support maximum fat-burning and the actions of all 3 major "mood" neurotransmitters (serotonin, dopamine and norepinephrine).*

NEW FEELGOOD FAT BURNING!

ULTRA-ADVANCED POSITIVE ENERGY BUILDING* PRO-LIPOLYTIC*
