ORGANIC CERTIFIED NOPAL JUICE BLEND

Opuntia ficus-indica

The Nopal cactus (*Opuntia ficus-indica*) also known as the "Prickly Pear" has been treasured for thousands of years by the indigenous tribes living in the southern hemisphere.

The Nopal cactus is regarded worldwide as a nutritional goldmine and its cactus "pad" has been used as a daily food. It is an excellent source of dietary fibers, essential vitamins and minerals.*

The Nopal fruit, which grows on top of the cactus base is known as its "pear". The "pear" (fruit) is a natural source of Betalains, a rare form of antioxidants. The juice of the "pear" has been traditionally used to support healthy cell replacement* and support a healthy response to inflammation.* Additionally, the "pear" has been traditionally used to detoxify* and fortify the body* to help promote healthy living.*
