

FAT BURNER*† ADIPOSE TISSUE REGULATOR*† CNS STIMULANT*† DOPAMINE MODULATOR*†

B4™, the newest breakthrough from BPI SPORTS, is unlike any Pre-Workout or Diet Pill that you've ever seen! This is the most exclusive **high-end sports performance and weight loss product** available anywhere. Every component of this formula was carefully developed utilizing the absolute highest standards and the most **cutting-edge** non-commercialized ingredients available anywhere in the world. The extractions of these specialized ingredients are of the highest purity and are designed to increase concentrations of both norepinephrine and dopamine. Enhancing these neuro transmitters means you can experience CNS-based **appetite suppression** as well as positive psychostimulant effects that include **improved mood, focus and increased energy capacity**. B4™ is immediate gratification in a pill. **A monumental, hardcore pre-workout supplement** that is formulated to help enhance performance, training, and help you to lose weight – **FAST!***†

Warnings: Not intended for use by persons under age 18. Do not exceed recommended dose. Get the consent of a licensed physician before using this product, especially if you are taking medication, have a medical condition, you are pregnant, nursing or thinking about becoming pregnant. **KEEP THIS PRODUCT AND ALL SUPPLEMENTS OUT OF THE REACH OF CHILDREN.**

Caffeine warning: The recommended serving of this product contains approximately as much caffeine as three cups of coffee. Do not consume caffeine, or combine with synephrine, including but not limited to coffee, tea, soda and other dietary supplements or medications containing phenylephrine or caffeine. Too much caffeine may cause nervousness, irritability, sleeplessness, and occasionally rapid heartbeat. Discontinue use if you experience dizziness, severe headache, rapid heartbeat or shortness of breath.

Caution: B4™ contains the B vitamin niacin. Niacin may cause temporary flushing, tingling, skin reddening, and sensations of heat, especially if taken on an empty stomach. This is a common reaction.
