

MAXIMIZE YOUR WEIGHT LOSS

BeautySlender™ attacks the stubborn fat areas on the body (hips, thighs, buttocks, and stomach) while maintaining existing lean muscle*. **BeautySlender™** contains Omega 3, 6, and 9 - the Essential Fatty Acids (EFAs) your body needs to help maintain already normal cholesterol levels and promote a healthier heart.

After much research, a more economical and efficient way to get the required CLA has been devised. Through advanced lipid technology, a CLA synthesizing process allows for precision intake through pre-measured softgel capsules. This allows for precise CLA intake at determined time intervals without the high calorie food consumption. Some research has suggested that CLA may support increased muscle strength and promote fat loss when used as part of a low calorie diet and consistent exercise*. Other research suggests that CLA may exhibit anti-catabolic properties and support immune system function*. Not only has CLA been suggested to increase muscle mass while reducing body fat, studies have also shown remarkable anti-catabolic, antioxidant, and immune enhancement benefits. All this from a structured lipid, a designer fat if you would.

SUGGESTED USE: Take 1 - 2 softgels 3 times a day with meals.

WARNING: DO NOT EXCEED RECOMMENDED DOSE ANYTIME.
