BEAUTY RECOVER™

Post-Workout Refuel

SCIENTIFICALLY FORMULATED TO ENSURE MUSCLE BUILDING
& STRENGTHENING BY ACCELERATING THE RECOVERY PROCESS

BeautyRecover™ ensures muscle building and strengthening by accelerating the recovery process, providing essential BCAAs, specifically Leucine that works to stimulate the key muscle building pathways. Research has shown that Leucine activates a major complex in the protein generation pathway called the mTOR. This amino sensitive complex is triggered to turn on when Leucine concentrations are high. Each serving of BeautyRecover™ provides a whopping dose of research-grade Leucine to stimulate the mTOR complex and ignite protein synthesis production. This power-packed post-workout powder also provides supporting BCAAs Isoleucine and Valine to help drive activation and decrease the rate of protein breakdown by creating a perfectly protein balanced environment.

WARNING: Not intended for use by persons under age 18. Do not exceed recommended dose. Get the consent of a licensed physician before using this product, especially if you are taking medication, have a medical condition, you are pregnant, nursing or thinking about becoming pregnant. Keep this product and all supplements out of the reach of children.

How Does BeautyRecover™ Work?

BeautyRecover™ builds and firms muscles by ensuring adequate post-workout recovery. BeautyRecovery™ triggers the recovery process by providing the right mix of essential BCAAs – Leucine, Isoleucine, and Valine, muscle preserving Glutamine, and an electrolyte blend. This specific combination of ingredients helps drive the exact pathway needed to stimulate muscle building, prevent protein breakdown. BeautyRecovery™ also provides supportive ingredients to restore loss nutrients, and create a protein balanced environment perfect for building and maintaining lean and firm muscles!

BEAUTYRECOVER™ BENEFITS

- **Helps Fuel Recovery:** Provides essential branched chain amino acids Leucine, Isoleucine and Valine to kick-start muscle protein synthesis and the re-building process.
- **Reduces Muscle Soreness:** By decreasing the rate of protein degradation, BeautyRecover reduces the breakdown of muscle tissue that can cause muscle soreness post workout.
- **Accelerates the Healing Process:** By providing the exact dose of Leucine needed to stimulate the muscle protein synthesis pathway through activation of the muscle building complex mTOR.
- **Builds and Firms Your Muscles:** Restores muscle nitrogen balance which is critical to maintaining, building and firming muscle tissue!
- **Restores Electrolyte Balance:** Contains an electrolyte blend to help restore nutrients lost through sweat and muscle contractions during intense training.
- **Helps Reduce Cortisol:** Within minutes of consuming the formula, cortisol levels are reduced which helps prevent muscle breakdown. This is essential to the overall muscle-toning process and recovery.

Supplement Facts

Serving Size: 1 Packet
Servings Per Container: 25

	Amount Per Serving	%DV
Vitamin B6 (as Pyridoxine)	.64 mg	32%
Electrolyte Blend	1170 mg	†
Trisodium Cutrate, Potassium Chloride, Sodium Chloride		
BeautyRecover™ Matrix Blend	4500 mg	†
L-Glutamine, L- Citrulline Malate 1:1, L-Leucine, L-Isoleucine, L-Valine		

†Daily Value (DV) Not Established

Other Ingredients: Maltodextrin, Citric Acid, Natural & Artificial Flavors, Acesulfame Potassium, Sucralose, FD&C Blue#1.

Directions For BeautyRecover™ - Take one (1) serving (1 packet) blended into 8oz of ice cold water, either during, or after workout, or as directed by a qualified healthcare practitioner. On non-training days, take one (1) serving (1 packet) first thing in the morning, on an empty stomach, or as directed by a qualified healthcare practitioner.

BeautyRecover™ is designed to deliver the right nutrients at the right time to ensure muscle building and firming. You can only experience lean and hard muscle building with the right recovery. If you skip out on taking this post workout recovery supplement, you will only be dissatisfied with the results. Not only will you not be kick-starting the biochemical pathway you need to activate the muscle building process, you are also leaving your body open to experiencing muscle loss. Our body will breakdown hard-earned muscle into usable energy to fuel recovery if you do not give it what it needs. Proper recovery, including taking BeautyRecover™ drives protein synthesis – muscle building and maintains a rich nitrogen balanced environment to sustain firm and hard muscles!
