

'Muscle Amplification Lean Mass Gainer'

- 'STEALTH® is Infused with 12 Key NO-Shotgun® Ingredients Proven to:
 - Ignite Muscle Growth by Increasing Muscle DNA by 148.65%!
 - Amplify Muscle Gene Proteins: MyoD, MRF-4, Myf-5, Myogenin up to 515%!
 - Increase Lean Muscle Growth 181% & Myofibrillar Protein 107%!
 - Increase Bench Press 1,108% and Leg Press by 55%!
 - Boost Satellite Cell Proliferation and Myogenic Regulatory Factors!

- 'Stimulate NEW MUSCLE NOW™ with:
 - 7 Anabolic & Anti-Catabolic Steady State Proteins with Whey & Casein Di- & Tri-Peptide!
 - 7 Cutting Edge Creatines: Including Creatine Nitrate, Creatine Leucinate & COP®!
 - 5 Protein Sparing Fats and 3 Potent Anabolic Insulinotrophic Agents!
 - Long Chain Polymeric Waxy Maize Glycogen Super-Compensation!
 - Beta-Alanine to Increase Whole Body Creatine Retention!

STEALTH® Muscle Amplification Lean Mass Gainer™ contains a synergistic combination of research proven compounds to shift muscles into maximal anabolic overdrive. Unlike other gainers, STEALTH® is also designed to give you explosive power and strength with compounds proven to increase bench press 1,108% over a placebo. VPX's STEALTH® is infused with 12 key NO-Shotgun® ingredients university proven to radically increase 4 muscle gene proteins up to 118% and amplify Muscle DNA by 148.65%. Muscle DNA is the genetic code that tells the muscle to split and form new muscle fibers known as hyperplasia. STEALTH®-induced hyperplasia allows you to add muscle mass geometrically by forming new muscle. STEALTH® contains 7 potent proteins. This mass-building mixture feeds your muscles with the building blocks to make existing muscles larger and to form new muscle tissue. Whey and Casein Protein Hydrolysates are the most anabolic proteins known to man and enter the blood rapidly causing a massive spike in insulin – the most anabolic of all hormones including growth hormone and testosterone. These fractionated Whey and Casein Di- and Tri-Peptides have an insulinotrophic effect that forces amino acid transport into muscles to induce rapid growth. Furthermore, this unique combination of fast and slow proteins provides an instant anabolic kick followed by a slow trickle of amino acids for anti-catabolic muscle breakdown prevention. Coupled with these superlative proteins are cutting edge Creatine Nitrate, COP® (Creatinol-O-Phosphate) and Creatine Leucinate to drive muscle strength and muscle growth through the stratosphere. Research shows that these compounds can activate satellite cells, enhance myofibrillar protein synthesis, and top off phosphagen energy concentrations in muscle. Specialized unsaturated fats are utilized for superior muscle cell membrane integrity along with high molecular weight polymers for glycogen super-compensation. VPX's STEALTH® is the superior muscle mass builder that is perfect to lay down slabs of mind-blowing mass. In the old-school days the weight gainer with the most calories won the mass war but made people look and feel like trash. VPX STEALTH® has changed the rules of rapid muscular weight gain by adding the world's most powerful nutrient partitioning agents. Agents so powerful that they were proven to alter muscle gene proteins with just one ounce of NO-Shotgun® per day! If just one ounce of NO-Shotgun® a day increased lean muscle mass by 5.5 pounds, imagine what 10 ounces of STEALTH® can do!

Who needs STEALTH®? For many athletes such as bodybuilders and strength-power athletes, lean body weight is the key to athletic dominance. Gaining muscle weight can provide a competitive advantage for sports requiring extensive strength and power like football, basketball, ultimate fighting, MMA, soccer, baseball etc. Gains in muscle with STEALTH® also provide the stimulus to radically alter your physique to give you a chiseled, rock-hard look. While other gainers cause you to bloat up like a water tank and gain slabs of fat and make you look and feel like garbage, STEALTH® can help you achieve massive and rapid gains in Lean Muscle Mass. Distinct from other gainers, STEALTH® is the answer to today's hard training and hardcore power, strength and lean mass seeking athlete!

Prepare to grow by consuming one serving of STEALTH® 30 minutes before exercise to flood your body with the key muscle building anabolic compounds. Also saturate muscles with another serving of STEALTH® post-workout to insure explosive muscle growth and recovery. The sooner you recover, the faster you can go back to the gym and thrash the weights again! During off-training days, consume STEALTH® first thing in the morning. Consume a second serving of STEALTH® anytime during the day when a whole food meal is not available. While not necessary, you can also stack STEALTH® with NO-Shotgun® and/or NO-Synthesize® and supplement your protein intake even further with VPX's great tasting Protein Rush™ ready to drink beverage.

KEEP OUT OF REACH OF CHILDREN. STORE IN A COOL, DRY PLACE. CONTENTS SOLD BY WEIGHT NOT VOLUME. SHAKE SETTLING MAY OCCUR.

DIRECTIONS FOR USE: Add 3 scoops (1 serving or 150 g) of STEALTH® to 16 ounces of cold water or skim milk. Mix in a blender or shaker cup for 30 seconds and consume. For the most rapid weight gain consume one serving of STEALTH® 30 minutes before and immediately after training. Also, consume STEALTH® on non-training days first thing in the morning and then as a mid-day meal. It is important to consume 10 additional ounces of water following each great tasting STEALTH® shake. Also, make sure to eat at least three balanced whole food meals per day in addition to drinking STEALTH®.

Additional Ingredients: Cocoa Powder (Processed with Alkali), Natural and Artificial Flavors, Lecithin, Sodium Chloride, Potassium Phosphate, Tri-sodium Phosphate, Sucralean® Brand Sucralose, Malic Acid, Acesulfame Potassium.

Allergen Information: Contains milk and soy (as soy lecithin). STEALTH® does not contain soy protein.

Allergen Warning: Produced in a facility that process milk, egg, nuts, tree nuts, soy and wheat.

Formulation of STEALTH® is based on the World's Most Cutting Edge Muscle Science conducted at Baylor University with human subjects using NO-Shotgun®!
