

RECOMMENDED USE: Shake well prior to use. Dispense 10 mL (1 full Delivery Detonator™) of **CREATINE PLASMA™** into mouth and swallow. **CREATINE PLASMA™** can be stacked with **POWER SHOCK®**, **PROTEIN RUSH®** and **MELTDOWN® FAT INCINERATOR™**.

†Creatine is the single most scientifically studied supplement in history. Why is it so important? The cells in the human body store their energy in the form of a molecule called ATP. Creatine enhances physical performance by increasing the number of times that ATP can be recycled during physical exercise. Supplementation with creatine monohydrate can increase gains in strength and muscle attained through resistance exercise. Furthermore, creatine has been shown to improve muscle recovery and brain function. Share your experience with **VPX CREATINE PLASMA™** and all the other great **VPX** products with users like you on our forum at **VPXSPORTS.COM**.
