

12 GAUGE SHOTGUN

Physiological Function: Rapid ATP Resynthesis, CNS Stimulator, Increases Whole Body Creatine Retention & Intramuscular Carnosine, pH Stabilizer/Fatigue Inhibitor, Blood-Engorging Muscle Matrix, Explosive Power & Intense Energy! Myogenic Regulatory Factor (MRF) Igniter!¹ **12 GAUGE SHOTGUN**® and **FRICITION**™ are the only products in the world to contain VPX's Patent Pending Covalently Bonded Creatine/Leucinate Peptide!

The **NEW 12 GAUGE SHOTGUN**® delivers the extreme mental acuity and intense energy required for explosive workouts in the gym and on the field. Increases in Myogenic Regulatory Factors up to 515% are proven by a study conducted at Baylor University on VPX's original NO-Shotgun® MHF-1™ formula.¹ This same foundational University Proven Science has been used to develop the **NEW** cutting-edge **12 GAUGE SHOTGUN**® formula. **12 GAUGE SHOTGUN**® is intended for advanced athletes who seek to increase and/or break personal or competitive performance goals. Utilize **12 GAUGE SHOTGUN**® with caution. While similar products may require 3 scoops (servings), it is strictly prohibited and unnecessary to use more than one serving of **12 GAUGE SHOTGUN**® due to its extreme potency.

The all New **12 GAUGE SHOTGUN**® has a far more powerful stimulant and "pump" or muscle volumizing effect than its predecessor, NO-Shotgun® MHF-1™. Therefore, some individuals who do not desire such a powerful stimulant or muscle pump effect may still prefer the original NO-Shotgun® MHF-1™ – a scientific breakthrough backed by three studies at Baylor University and Florida State University.

WHY USE 12 GAUGE SHOTGUN®?

- Unparalleled Training Intensity, Mental Acuity & Focus[†]
- Increases Whole Body Creatine Retention[†]
- Muscle Fullness & Blood-Engorged Pumps[†]
- Strength, Power, Endurance & Recuperation[†]
- Crisp, Water-Free Muscle Separation[†]
- Blood Flow & Nitric Oxide (N.O.) Levels[†]
- Patent Pending Covalex™ Covalently Bonded Creatine/ Leucinate Peptide[†]
- 1,3 DMAA Free!
- Fully Dosed, Researched-Backed (1,300+ Studies) Amounts of Creatine^Δ

Tested athletes must contact their governing organization prior to using this product. Tested athletes and consumers assume total liability if this product is used in a manner inconsistent with the label guidelines. Do not purchase if safety seal is broken or missing. Store container between 15°C to 25°C (59°F to 77°F). Product contains heat and moisture sensitive materials which can cause clumping and settling. **SHAKE WELL BEFORE OPENING.**

DIETARY SUPPLEMENT

12 GAUGE SHOTGUN®

NET WT 392 g (13.82 oz)

Supplement Facts

	Amount Per Serving	%Daily Value*
Serving Size 1 scoop (14 g) Servings Per Container 28		
Calories	16	
Sodium	5 mg	0%*
Total Carbohydrate	4 g	2%*
Vitamin B6 (Pyridoxine HCl)	100 mcg	5%
Folate (Folic Acid)	40 mcg	10%
Proprietary Muscle Volumizing, NO₂, Insulinotropic & Amino Acid Blend	5,752 mg	**
Creatine Monohydrate	Agmatine Sulfate	
L-Taurine	COP™ (Creatinol-O-Phosphate)	
L-Citrulline Malate	Covalex™ (Covalently Bonded Creatine /Leucinate Peptide)	
L-Norvaline	Gamma Butyrobetaine HCl	
Power, Speed, Strength, and Endurance Matrix	1,315 mg	**
Beta-Alanine	Monosodium Phosphate Anhydrous	
Betaline Anhydrous		
Friction Energy & Meltdown Fat Oxidation Technology	500 mg	**
Caffeine Anhydrous	Beta-Phenylethylamine HCl	
Isopropylclostapamine	Halostachine HCl	
Evodia (Evodia Fructus) (fruit) [atd. to evodiamine]		
Carbonx™ Novel High Molecular Weight Carb Blend	4,000 mg	**
Hydroxypropyl Distarch Phosphate (Food Starch-Modified)		
Highly Branched Cyclic Dextrin		

†Not a significant source of fat, calories from fat, saturated fat, trans fat, cholesterol, dietary fiber, sugars, vitamin A, vitamin C, calcium, iron, and potassium.
*Percent daily values are based on a 2000 calorie diet
**Daily Value not established

OTHER INGREDIENTS: malic acid, natural and artificial flavors, citric acid anhydrous, Sucralean® brand sucralose, and acesulfame potassium.

RECOMMENDED USE: Do not use **12 GAUGE SHOTGUN**® with **REDLINE**®, **FRICITION**™, **MELTDOWN**®, or any other products containing caffeine or other stimulants. Mix one scoop of **12 GAUGE SHOTGUN**® with 8 to 10 ounces of water or your favorite beverage. Start with ½ to ¾ scoops to assess tolerance. Drink **12 GAUGE SHOTGUN**® 30-45 minutes prior to any type of athletic event or resistance training. Unlike other pre-workout supplements which may require several scoops, **12 GAUGE SHOTGUN**® is extremely powerful and requires only one scoop.

For maximum results VPX recommends the following stacking strategy: Combine **12 GAUGE SHOTGUN**® with the **CARBONX**™ Super Carb Matrix pre-workout for rapid ATP Resynthesis, enhanced performance, and endurance. Sip **POWER SHOCK**™ Amino Acid Nitrates during your workout for increased protein synthesis. Then, drink **NO-SYNTHESIZE**® – post-workout. This supplement strategy represents the most advanced muscle building and performance-enhancing research! This protocol WAS developed by Jack Dwoc allows you to take advantage of the pre-, post-, and intra-workout windows for increases in muscle gene proteins and protein synthesis. You can learn more detail by reading Jack Dwoc's new book: **MELTDOWN**® and using the new **VIVO 360**® workout, nutrition, and supplement smart phone app.

Caution: As with all dietary supplements, do not use this product if you are pregnant or nursing or have a medical condition. This product contains caffeine and should not be used with any other caffeine and/or stimulant containing products. This product is intended for use by healthy individuals only.

Warning Statement: Too much caffeine may cause nervousness, irritability, sleeplessness, and, occasionally, rapid heartbeat. Not recommended for use by children under 18 years of age. One serving of **12 GAUGE SHOTGUN**® provides 250 mg of caffeine which is less than three cups of coffee. **KEEP OUT OF REACH OF CHILDREN.**

Muscle energetic compounds within **12 GAUGE SHOTGUN**® may cause a tingling sensation in lips and skin. Contains no Niacin.

Drink an additional one half (½) ounce of water for each pound of body weight.

*According to the NIH's biomedical database, a search of "creatine supplementation" turns up over 1,300 plus scientific studies.

†When combined with resistance training and a sensible diet.

†These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.
