

BODY FORTRESS® BCAA TRI-AMINO COMPLEX

Body Fortress® has formulated a powerful blend of the three Branched Chain Amino Acids that many "Industry Insiders" consider to be the most important for any serious bodybuilders or athletic program. Isoleucine, Leucine and Valine, collectively known as BCAA's, are combined with high potency B-6 to take your training to another level.*

Body Fortress® BCAA Tri-Amino Complex Benefits:

- Provides dual benefits since BCAAs can be broken down in muscle to supply a direct source of energy or can be used to build protein.*
- Provides muscle nitrogen support for a variety of metabolic functions, which can be especially important during heavy training.*
- BCAAs are critical for bodybuilders as they make up a large percentage of the amino acid composition of muscle.*
- BCAAs are also the only aminos that are directly metabolized in the muscle as opposed to the liver.*

ENHANCED WITH HIGH-POTENCY VITAMIN B-6, WHICH PLAYS AN ESSENTIAL ROLE IN BCAA METABOLISM FOR OPTIMAL USAGE.*

Directions: For adults, take two (2) softgels before your training session and two (2) softgels afterwards. As a reminder, discuss the supplements and medications you take with your health care providers.
