

GlyProXTS™ Complete Stack

Champion Nutrition® brings you the most scientifically advanced pre-workout supplement ever developed, GlyProXTS™ Complete Stack. Fueled by clinically tested GlycoCarn® GPLC (Glycine-Propionyl-L-Carnitine HCl), GlyProXTS™ Complete Stack takes Nitric Oxide and amplifies your 'Pump' like you've never felt before. In a university study, GPLC was shown to increase Nitric Oxide production over standard Arginine vasodilators alone. The bottom line: you will work out harder and longer lifting heavier weights than you have ever lifted.

ARGININE is crucial for muscle growth, increases Nitric Oxide production and improves endurance and recovery time.[†]

BETA-ALANINE can improve stamina at peak strength by nearly 10%. Feel the phenomenal staying power, strength, and faster recovery for yourself![†]

GLUCURONOLACTONE provides energy and increased alertness.[†]

DI-CREATINE MALATE provides an increase in creatine bio availability much greater than creatine monohydrate.[†]

BCAAs are the 'building blocks' of the body. They make up 35% of muscle mass and must be present for growth. Helps speed up muscle recovery.[†]
