

50g Protein - With Critical Growth Factors Intact*

The MUSCLE-PEAK™ ADVANTAGE:

1. The Unstoppable Whey Hydrolysate: The World's Fastest Absorbing Protein. Studies strongly suggest that the ingestion of a fast-acting protein/amino acid hydrolysate supplement can increase amino acid levels in systemic circulation where they are available for muscle protein anabolism (growth). The more rapidly these amino acids rise in the blood, the greater the muscle building reaction. Hydrolysates like the ones found in **MUSCLE-PEAK™** have been shown to be the most beneficial form for bodybuilders and athletes as they absorb the fastest and therefore create the greatest spike in plasma concentration.*

2. Powerful Unstripped Whole Protein Fractions With Critical Growth Factors Intact: **MUSCLE-PEAK's™** unique manufacturing process retains critical bioactive lean body mass growth factors including di, tri and oligo peptides, beta-lactoglobulin, alpha-lactalbumin, serum albumin, and immunoglobulins. These critical growth factors are often stripped away in many protein supplements but their roles are of great importance as they have been shown to provide multiple growth factors including the powerful IGF-1 (insulin-like growth factor).*

3. Muscle Cell Stimulators and Your Natural Rapid Recovery Cascade: **MUSCLE-PEAK™** is loaded with Branched-Chain Amino Acids (BCAAs, particularly Leucine), L-Glutamine and Creatine, some of the most powerful nutrients of their kind shown in clinical studies to help stimulate muscle protein synthesis and ATP formation. Additional amino acids such as Glycine and Taurine have been added to help stimulate your Natural Rapid Recovery Cascade so your muscles can regenerate and recover faster which provides for a more favorable state for muscle growth.*

4. Lean Muscle Ratio Keeps Muscle Full And Not Flat For Hard Dense Muscles: **MUSCLE-PEAK™** provides an outstanding choice for staying lean but without sacrificing muscle fullness. Drinking a straight protein shake that is very low in carbs and fat can be useful for certain times but bodybuilding athletes often make the mistake of not taking in the proper ratio of macronutrients to keep their muscle lean but also full at the same time. **MUSCLE-PEAK™** was designed with this in mind to help keep your muscles full and not flat for hard dense muscles.*

Manufactured in an **EU** certified facility.
Manufactured in a **GMP** registered facility.

MUSCLE-PEAK™

WHEY HYDROLYSATE ENHANCED

Advanced Lean Mass Muscle Building Protein*

Powerful Unstripped Whole Protein Fractions – Critical Growth Factors Intact*

With Muscle Cell Stimulators For Rapid Growth And Lean Muscle Mass*

5 lbs. (2.27 kg)

**Dietary
Supplement**

PARISI
Speed School Approved

Strawberry
Naturally and Artificially Flavored

Directions: As a dietary supplement, mix 2 scoops with 10-12 oz. of water or milk depending on your desired consistency. Use approximately 10-12 oz. of liquid for each scoop of **MUSCLE-PEAK™**. Additional servings may be used to meet your daily protein requirements.
