

Directions: Take two to four capsules twice daily or as directed by your healthcare practitioner.

Heavy Metal Detox is an extraordinary combination of nutrients and antioxidants that may aid in the body's removal of heavy metals. This all natural formula features unique and therapeutic ingredients designed to safely and effectively maintain proper systemic heavy metal removal. DMSA and EDTA are able to chelate heavy metal safely and effectively. Cilantro and Chlorella aid in the effective clearance of those heavy metals and the antioxidants N-Acetyl Cysteine and Lipoic Acid provide protection during that clearance.*
