20 SOFT GELS:

1631 - 10

${\it Carlson}$: Specializing in the finest Norwegian fish oils since 1982.

Medical Scientists Internationally are encouraging people to eat more fish. Fish body oil is the ONLY MAJOR SOURCE of the polyunsaturated Omega-3's EPA and DHA.

For those individuals who do not eat an oily fish diet, Carlson offers Omega-3's in easy-to-swallow soft gelatin capsules. Carlson soft gels contain 1000 mg (1 gram) of a special concentrate of fish body oils from deep, cold water fish which are especially rich in the important Omega-3's EPA and DHA.
