Advanced Creatine Complex 10 g
Micronized Creatine Monohydrate, Micronized L-Arginine, Micronized Guanidinoacetate, Creatine Citrate, Micronized AKG, Micronized Glycine, Micronized L-Methionine, Creatine Ethyl Ester HCl, Creatine AKG, Creatine HCl

Leucine 6.2 g
(As Whey Protein Concentrate, Whey Protein Isolate, L-Leucine, Calcium Caseinate, Soy Protein Isolate, Hydrolyzed Whey Peptides)

Betaine Anhydrous 2.5 g

Quercetin 1 g

Fenugreek Extract 600 mg
(*Trigonella foenum-graecum*)(seed) (standardized for Fenuside)

HMB Powder 500 mg

Sustamine™ (L-Alanyl-L-Glutamine) 100 mg

BioCore Edge™ 100 mg
Protease (from *Aspergillus oryzae*, *Aspergillus niger* and *Aspergillus melleus*) and Peptidase (from *Aspergillus oryzae*)

Brown Seaweed 100 mg
(*Fucus vesiculosus*)(whole plant)

† Percent Daily Values are based on a 2,000 calorie diet.

* Daily Value not established.

OTHER INGREDIENTS: Carbohydrate Blend (Maltodextrin, Waxy Maize Starch, Polydextrose), Protein Blend (Whey Protein Concentrate, Whey Protein Isolate, Calcium Caseinate, Soy Protein Isolate, Hydrolyzed Whey Peptides), Fat Blend (Medium Chain Triglycerides, CLA Powder [Safflower Oil rich in CLA, Glucose Syrup, Sodium Caseinate, Silicon Dioxide, Lecithin, Tetrasodium Diphosphate, Natural Flavor, Natural Vitamin E]), Natural and Artificial Flavors, Titanium Dioxide, Citric Acid, Lecithin, Acesulfame Potassium, Sucralose, FD&C Red #40.

CONTAINS: Milk and Soybeans.

WARNING: Consult your physician prior to using this product if you are pregnant, nursing, taking medication, under 18 years of age or have a medical condition. Discontinue use two weeks prior to surgery.

NOTICE: Significant product settling may occur.

Two cups of 2% reduced fat milk provides an additional 240 calories, 9g total fat (6g saturated fat), 35mg cholesterol, 240mg sodium, 750mg potassium, 23g total carbohydrate (23g sugars) and 16g protein.

GET STARTED ON MASSIVE MASS PRODUCTION.

Beyond RAW® Re-Built Mass is a monster mass gainer with clinically studied components shown to improve muscle size, stamina and strength.** This hardcore formula packs 850 mass building calories of the highest quality protein and ingredients to deliver lean mass and support a rock hard physique.* As a massive anabolic stack, it is loaded with 60 grams of fast, medium, and slow-acting protein for crucial nutrient timing of essential aminos fueling dense, bulging muscles and 130 grams of energy driving carbohydrates to support mammoth gains.* To feed your hunger for size, it has an intense 10 gram Advanced Creatine Complex with 5 forms of creatine, including micronized creatine and creatine precursors for the forceful, mind-blowing workouts you live for.

Fuel up fast with a rapid absorbing, clinically studied L-Alanyl-L-Glutamine diPeptide. **Beyond RAW® Re-Built Mass** runs the spectrum of key anabolic factors to give you an explosive workout while guiding you to reach the ideal growth window you are striving to achieve.

GROWTH MOTIVATED. PERFORMANCE DRIVEN.

Beyond RAW® Re-Built Mass is a physique building performance product, using a scientifically precise array of ingredients to fuel engorging muscles and the body's natural creatine production, enhance athletic performance and training, and promote recovery.* **Re-Built Mass** adds a rich concentration of an anabolic quad-phase stack including an extreme mixture of a triple source protein blend, critical carbohydrates, power-pushing creatine, plus clinically researched CLA shown to help maintain lean muscle mass.* Magnifying the effects are enzymes with proven bioactivity to help breakdown protein and maximize amino acid uptake and HMB to help improve muscle protein balance.* It's this distinct combination of fuel-enhancing, energy-initiating and supporting factors that sparks mass producing results and superior athletic performance.*

*When used in conjunction with a resistance training program.

*In an 8-week study of healthy males performing resistance training, subjects taking this product's module of 20g whey protein and 6.2g leucine demonstrated an increased improvement in muscle strength and muscle size as compared to those performing the same training regimen on a placebo. In a second clinical study using a reduced volume resistance training protocol, the same anabolic module was shown to provide equal gains in maximum muscle strength and stamina when combined with one set or resistance training compared to two sets of the same amount of training without supplementation.
