Carlson: Specializing in the finest Norwegian fish oils since 1982.

Medical Scientists Internationally are encouraging people to eat more fish. Fish body oil is the **ONLY MAJOR SOURCE** of the polyunsaturated Omega-3's EPA and DHA.

For those individuals who do not eat an oily fish diet, Carlson offers Omega-3's in easy-to-swallow soft gelatin capsules. Carlson soft gels contain 1000 mg (1 gram) of a special concentrate of fish body oils from deep, cold water fish which are especially rich in the important Omega-3's EPA and DHA.
