

Other Ingredients: Dicalcium phosphate, microcrystalline cellulose, stearic acid, methylcellulose, hydroxypropyl cellulose, enteric coating, calcium stearate, silica.

Zymain® is a three-part combination supplement consisting of systemic proteolytic enzymes, key nutrients and minerals that help support soft tissue repair. This product is designed to provide a nutritional foundation to the healing response following trauma optimizing injury rehabilitation. Zymain® is based on scientific research of proteolytic enzyme action found in both the plant sources (bromelain and papain) and animal sources (trypsin and chymotrypsin).

OptZinc® is a trademark of InterHealth Nutraceuticals, Inc.
