

SUGGESTED USE:

As a dietary supplement, take 2 capsules twice daily.

Massularia Acuminata is a shrub or small tree that grows up to 9 meters high, primarily found in western Africa. A recent Nigerian study has revealed that Massularia Acuminata may boost testosterone and luteinizing hormone when taken daily. An increase in testosterone may lead to increases in muscle mass and athletic performance, along with decreases in body fat and levels of fatigue. REACTION NUTRITION only uses Massularia Acuminata 4:1 extract, the most potent form available. Our Massularia Acuminata 4:1 extract is 4 times stronger than regular Massularia Acuminata. This means that our 2,500mg dose is equivalent to 10,000mg, which is the dosage used in the aforementioned Nigerian study. ‡

WARNING: Do not exceed recommended dose listed. This product is not intended for use by any persons under age 18, who are pregnant or lactating, or have serious medical conditions. All persons should consult a physician before using dietary supplements, as individuals may have different supplemental needs. Consumption of this product that is inconsistent with recommended usage may produce adverse side effects. Discontinue use and contact physician immediately if you experience rapid heartbeat, dizziness, blurred vision or other similar symptoms.

KEEP OUT OF REACH OF CHILDREN
