** Daily Value not Established

Contains: Soy and Milk

Suggested Use: As a dietary supplement, adults take 1 scoop (20 grams) with 12-16 oz. of water or with your favorite beverage. For best results, begin drinking ENNERCELL™ halfway through your workout, sipping to finish it by the completion of your workout. ENNERCELL™ may instead be taken immediately upon completion of your workout. ENNERCELL™ was formulated and designed with dosage and efficacy in mind, so it is unnecessary to take more than one serving, or for ENNERCELL™ to be taken on non-workout days.
