beautifies
HAIR, SKIN & NAILS*
strengthens
BONES & COLLAGEN*

60 ml (2 oz)
Liquid

Patent
Pending

Supplement Facts

Serving Size 10 drops
Servings Per Container 120

Amount Per Serving	% DV
Silicon (Activated Silicon® formula of molecular clusters of stabilized silicic acid)	4 mg *
Boron (as boron citrate)	0.5 mg *
Zinc (as zinc citrate)	1 mg 6%

* Daily Value not established.

Other Ingredients: Deionized water, polyethylene glycol and methyl-sulfonyl-methane (MSM).
No wheat, no gluten, no soybeans, no dairy, no egg, no fish/shellfish, no peanuts/tree nuts. Store at or below room temperature.

Made in the U.S.A.

Lot #: Best Used Before:

SILICON SUPPLEMENT

Beautifies Hair, Skin & Nails*

JarroSil's Activated Silicon improves the strength and elasticity of collagen by stimulating collagen production. Stronger collagen means healthier, more elastic skin, and fewer and shallower wrinkles.*

The outer shaft of hair is rich in silicon. Adequate silicon helps hair grow thicker and stronger.*

Supplementation with JarroSil also strengthens weak, brittle nails associated with an inadequate silicon intake.*

Strengthens Bones & Collagen*

Silicon plays an important role in bone calcification, including during the growth of new bone.* Bone building cells (osteoblasts) start by constructing a connective tissue matrix. When this is done, the osteoblasts switch their function and begin to fill in this matrix with minerals. This process requires silicon.*

JarroSil is an essential partner of calcium for bones and antioxidants for supple and healthy arteries.*

USAGE: Take 10 drops per day; mix into 4 to 8 ounces water or juice and drink promptly.

WARNING: Do not put into the eye. Follow usage directions only. Do not take this product if you are pregnant or lactating.

JarroSil® is a synergistic formulation of highly bioavailable silicon. A patent pending **Activated Silicon®** formula, JarroSil contains stabilized molecular clusters of silicic acid, which provide a biologically active form of silicon upon dissolution into liquids.

JarroSil is manufactured in the USA using the latest technology for enhanced bioavailability, stability and improved taste. Stabilized silicic acid is converted to highly bioavailable ortho- and disilicic acids upon dissolution in liquids and in the stomach.

KEEP OUT OF THE REACH
OF CHILDREN.
