ProHydrolase® Protease Enzyme Blend (Proteases from <i>Bacillus subtilis</i> and <i>Ananas comosus</i>)	200 mg	*	400 mg	*
(70,000 HUT/200 mg; 140,000 HUT/400 mg)				

* Percent Daily Values are based on a 2,000-calorie diet.

* Daily Value not established.

OTHER INGREDIENTS: WheyBolic® Protein Complex (Whey Protein Isolate, Hydrolyzed Whey Protein), Cocoa Powder (Processed with Alkali), Natural and Artificial Flavors, Creamer (Sunflower Oil, Corn Syrup Solids, Sodium Caseinate, Mono- and Diglycerides, Dipotassium Phosphate, Tricalcium Phosphate, Soy Lecithin, Lecithin), Lecithin, Salt, Gum Blend (Cellulose Gum, Xanthan Gum, Carrageenan), Sucralose, Acesulfame Potassium, Caramel Color.

CONTAINS: Milk and Soybeans.

WARNING: Consult your physician prior to using this product if you are pregnant, nursing, taking medication, or have a medical condition. Discontinue use two weeks prior to surgery.

Gluten Free.

NOTICE: Use this product as a food supplement only. Do not use for weight reduction.

Significant product settling may occur.

ProHydrolase® is a trademark of Boerland Enzymes, Inc.

Velositol® and its associated logo is a trademark of Nutrition 21, LLC. Velositol® is patent protected.

* An 8-week, randomized, double-blind, placebo-controlled study of 33 healthy men compared the effectiveness of this proprietary module of whey protein and leucine vs. an isocaloric carbohydrate placebo consumed before and after resistance training. Subjects consuming the leucine-whey protein supplement experienced greater increases in muscle strength than those on the placebo. Leucine-whey protein supplementation also increased muscle cross-sectional area from baseline.

* When used in conjunction with an exercise program.

* In an 8-week, randomized, double-blind, placebo-controlled study of 30 healthy male volunteers comparing 1 set resistance training (RT) + active or carbohydrate placebo to 2 sets RT alone with no supplement, the active group showed equal gains in maximal muscle strength and muscle endurance compared to the control group.

* In a randomized, double-blind crossover clinical trial that included 20 recreationally trained, healthy male subjects, those taking 10 g whey protein isolate plus 10 g leucine immediately post-workout showed significant increases in key protein (p70S6α & p156) associated with muscle protein synthesis.

Products bearing this logo have been tested for banned substances by LGC Science, Inc., a world-class anti-doping lab. *Product was tested for over 345 banned substances on the 2017 World Anti-Doping Agency (WADA) Prohibited List via LGC skip lot testing protocol #ICP0307.
