Collagen™
TYPE 1&3

radiant skin • thicker hair
stronger nails • healthier joints*

dietary supplement

Net Wt. 7 oz (198 g) powder

anti-aging

Collagen is a complex structural protein that maintains strength and flexibility throughout the body. Super Collagen™ is made up of the collagen peptides Type 1&3 which support collagen in skin, hair, nails, muscles, tendons, ligaments and bones. Super Collagen™ is enzymatically hydrolyzed, providing an amino acid ratio with a low molecular weight for maximum bioavailability and utilization by the body. When Super Collagen™ is taken internally, the body receives the raw materials it needs to supplement the collagen found in all of these areas and may act as a messenger to trigger the synthesis of new collagen fibers. Super Collagen™ is neutral in taste and is specifically formulated in an easy to take powder form. It works synergistically with Vitamin C and is recommended to be mixed with orange juice or a Vitamin C supplement.*

SUGGESTED USE: As a dietary supplement, dissolve one scoop of Super Collagen™ with one spoon of water or orange juice. Then add 6-8 ounces or more of liquid, and stir vigorously. For best results, use a blender. For optimum nutritional benefits, drink as suggested on an empty stomach and wait 30 minutes before eating. Enjoy enhanced results when paired with NeoCell™ Hyaluronic Acid products.
