+HA

promotes youthful hydrated skin
*collagen support complex**

dietary supplement

eye health

Fish Collagen+HA is a premium nutricosmetic that is formulated to promote healthy, strong and hydrated skin. Collagen Type I is the main constituent of the collagen in the skin and can help to build the mechanical strength of the skin. Hyaluronic Acid (HA) is found in every tissue of the body, and is an essential lubricant of healthy skin, joints and eyes. Copper can help in collagen production. Fish Collagen+HA provides a strong combination to promote collagen and tissue renewal.

SUGGESTED USE: As a dietary supplement, take two (2) capsules twice daily. For optimum nutritional benefits take on an empty stomach and wait 30 minutes before eating.
