

Anarchy Science: "Without rules and scientific boundaries and limitations – Anarchy is the rule of controlled chaos!" J. Owoc, June, 2010.

Physiological Function: Rapid ATP Resynthesis, CNS Stimulator, Increases Whole Body Creatine Retention & Intramuscular Carnosine, pH Stabilizer/Fatigue Inhibitor, Nutrient Dense Blood-Engorging Muscle Matrix, Explosive Power & Intense Energy! Myogenic Regulatory Factor (MRF) Igniter![†] Anarchy is currently the only product in the world to contain VPX's Covalex™ Patent Pending Covalently Bonded Creatine & Glutamine Peptide!

Words of Wisdom & Caution: Anarchy induces extreme mental acuity & intense energy required for explosive workouts in the gym and on the field. Anarchy is designed to ignite Myogenic Regulatory Factors (MRF's) and positively influence increases in these muscle gene proteins for proliferation of new muscle cells. Increases in MRF's up to 515% is proven by a study conducted at Baylor University on VPX's NO-Shotgun.[†] This same University Proven Science has been used to develop the (cutting-edge) Anarchy formula. Anarchy is intended for advanced athletes who seek to increase and/or break personal or competitive performance goals. Anarchy is currently the only product in the world to contain VPX's Covalex™-Patent Pending Covalently Bonded Creatine & Glutamine Peptide. Utilize Anarchy with caution. While similar products may require 3 to 5 scoops, it is forbidden to use more than one scoop of Anarchy due to its extreme potency.
