

Known as the building blocks of protein, BCAAs are a proven way to support lean muscle maintenance, prevent training fatigue and promote recovery. Unfortunately, many BCAA formulas short-change results by failing to include EAAs existed Armino Acids) - and that's where HydroBCAATM comes (Essential Armino Acids) - and that's where HydroBCAATM comes (HydroBCAA) and control to the Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Armino Acids) - and that's where HydroBCAATM comes (Particular Armino Ar

RCAA

Branch Chain Amino Acids (Leucine, Isoleucine & Valine) are critically important for the stimulation of muscle protein synthesis, the reduction of protein breakdown and for preserving muscle glycogen stores. These amino acids are rapidly absorbed into the bloodstream, which makes them efficient and effective +

EAAs

Essential Amino Acids are 'essential' to obtain through diet because the body cannot produce them on its own. They are the key to a variety of functions, including the production of cellular energy, promotion of cellular repair, promotion of healthy digestion, prevention of muscle breakdown, and more.+

2:1:1

SUGGESTED USE: As a dietary supplement, mix 1 scoop (14.5g) of HydroBCAA™ with 8-10 fluid oz. of cold water. HydroBCAA™ can be consumed prior to training, during training and after training for maximum efficacy.

Supplement Facts

Serving Size: 1 Scoop (14.5g) Servings Per Container: 30

	Amount Per Serving	% DV*
lories	0	
tal Carbohydrates	Og	0%
Sugars	Og	**
lcium (as calcium citrate)	50mg	4%
agnesium (as magnesium citrate)	50mg	12%
dium (as sodium citrate)	50mg	2%
tassium (as potassium chloride)	100mg	2%
1:1 BCAA Blend eucine, L-Isoleucine, L-Valine	7g	**
A Blend: hreonine, L-Phenylalanine, L-Lysir	3g ne, L-Histidine	**

^{*} Percent Daily Values are based on a 2,000 calorie diet
** Daily Value (DV) not established

Other Ingredients: Citric Acid, Natural Flavors, Sucralose, Silicon Dioxide, Fruit & Vegetable Juice Powder (for color), Acesulfame Potassium

No Artificial Colors or Dves

STORE IN A COOL, DRY PLACE, CONTENT SOLD BY WEIGHT NOT VOLUME; SOME SETTLING MAY OCCUR. PROTECT FROM HEAT, LIGHT, AND MOISTURE.

Contains 0% Juice USA, NTL 70-0407

MANUFACTURED FOR AND DISTRIBUTED BY: PROSSUPPS USA, LLC.
