

Jarrow-Dophilus EPS[®]

Intestinal & Immune Function
& Health*

USAGE: Take 1 capsule up to 4 times per day with water or juice, preferably on an empty stomach, or as directed by your qualified healthcare professional.

Jarrow-Dophilus EPS[®] is a Stable-Dophilus[®] probiotic due to its shelf life stability at room temperature and its enteric coating delivery system, which protects the beneficial probiotic strains while in transit through the stomach's acidic environment.* The delivery system ensures that a maximum number of viable cells are delivered into the intestinal tract, where they can fully exert their beneficial effects.* The strains in Jarrow-Dophilus EPS[®] are selected from the following 4 genera:

**Lactobacillus, Bifidobacterium,
Lactococcus and Pedococcus.**

Probiotic strains such as *B. longum* BB536, *L. rhamnosus* R0011 and *L. helveticus* R0052 are well characterized and have been shown to have the ability to interact, via multiple mechanisms of action, with the intestinal tract and the microbial ecosystem within it.* These strains have been clinically shown to have a positive influence on the composition of the intestinal microflora, promote intestinal health and support immune response.*

Storage Instructions: Jarrow-Dophilus EPS[®] is room temperature stable and does not require refrigeration. Refrigeration will, however, extend the shelf-life. Avoid temperatures above 77°F (25°C).

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 15

	Amount Per Serving	% DV
Probiotic Bacteria Blend	5 Billion Viable Cells (Minimum)†	††
Composed of the following strains:		
<i>L. rhamnosus</i> R0011	<i>L. helveticus</i> R0052	
<i>Pedococcus acidilactici</i> R1001	<i>L. casei</i> R0215	
<i>B. longum</i> BB536	<i>L. plantarum</i> R1012	
<i>B. breve</i> R0070	<i>Lactococcus lactis</i> subsp. <i>lactis</i> R1058	

† Minimum 5 billion viable cells at time of consumption, under recommended storage conditions and within Best Used Before date.

†† Daily Value not established.

Other Ingredients: Potato starch, magnesium stearate (vegetable source) and vitamin C (antioxidant). Vegetarian capsule consists of hydroxypropylmethylcellulose and an aqueous-based enteric coating.

Contains: Milk and soy (in trace amounts).

No wheat, gluten, egg, fish/shellfish, or peanuts/tree nuts.

EnteroGuard[®] ensures the maximum survival of probiotic bacteria to the small intestines, and hence enhances their effectiveness.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

Keep out of the reach of children.
