

Adrenal Medulla

Natural Glandular

Provides tissue from the medulla portion of the adrenal gland. Lyophilized. Our natural glandular material is derived from government-inspected, range-fed animals, raised in New Zealand and Australia, whose animal husbandry regulations are among the strictest in the world. The material is lyophilized, which means it is immediately frozen, then subjected to a high vacuum that vaporizes moisture directly from the solid state.

Formulated by Dr. Nicholas Gonzalez M.D.

Suggested Use

As a dietary supplement, 1 capsule daily with a meal, or as directed by a healthcare practitioner.

Variations in product color may occur. Keep in a cool, dry place, tightly capped.

Must be taken with food as GI distress may otherwise occur.
