

ProtoClear™ is uniquely designed to provide these important benefits:

- Ingredients that aid in heavy metal detoxification
- Co-enzyme B vitamins for efficient utilization, including B₁₂ as Methylcobalamin
- Albion® mineral chelates as glycinate, including Copper, Molybdenum and Manganese
- ProtoSorb™ C, a patent-pending Vitamin C formulation providing buffered calcium ascorbate with the metabolite theonic acid for optimal absorption and utilization
- Natural-form amino acids for balanced immune and detoxification support: Glutathione, Lysine, NAC, Glycine and Taurine
- Nutrients and botanicals for the support of Phase I and Phase II detoxification processes, such as TMG (Betaine), MSM, Choline, EGCg from Green Tea, Silymarin from Milk Thistle and Alpha-Lipoic Acid
- Medium Chain Triglycerides (MCTs), healthy fatty acids that are readily absorbed and utilized as energy by the body
- Organic Golden Flax Seed Meal for valuable fiber, lignans, and essential Omega-3 fatty acids
- Natural Vitamin E
- With Vitamin D₃
- Non-GMO Pea Protein base that mixes well and is non-reactive in most sensitive individuals

All of these ingredients are combined in a great tasting drink mix, which has been formulated for use in conjunction with a comprehensive detoxification program.

ProtoClear™ Detoxification Support Formula*

Protocol For Life Balance® is proud to have been the first dietary supplement manufacturer to utilize 100% pure, Non-GMO Pea Protein as the base for our popular detoxification support formula, ProtoClear™.

Pea Protein is a highly-bioavailable, allergy-friendly, vegetarian protein source that is well-tolerated in most sensitive individuals. With a generous proportion of Branched Chain Amino Acids, as well as Glutamine and Arginine, Pea Protein helps to support immune system function and the maintenance of healthy muscle tissue during the detoxification process. Because ProtoClear™ is not manufactured with wheat, gluten, milk, eggs or soy protein, it is an ideal choice for those who struggle with common food allergies and intolerances. For these reasons, Pea Protein is the ideal protein base for the ProtoClear™ elimination diet that also offers the unique benefit of Phase I and Phase II detoxification support.*

Item # P5960
ProtoClear™ Natural Vanilla
2.31 lbs.

ProtoClear™

Detoxification Support Formula*

SUGGESTED USAGE: As a dietary supplement, mix packet (25 g) into 5-6 oz. of water, juice, or other liquid, or as directed by your healthcare practitioner. To be used as part of a short-term detoxification program. *This sample packet represents one half the serving size of ProtoClear™ as recommended.*

HOW IT WORKS: ProtoClear™ is a protein-based nutritional supplement utilizing a vegetarian Non-GMO Pea Protein designed for use in conjunction with a comprehensive detoxification program as the cornerstone of an elimination diet. ProtoClear™ has vitamins, minerals and other nutrients that support Phase I and Phase II detoxification, as well as a blend of nutrients that help to protect against the free radicals generated during the detoxification process.* ProtoClear™ includes selected B vitamins in their biologically active forms, which can be readily used by the cells of the body, needing no conversion by the liver. ProtoClear™ also has Apple Pectin, a naturally sourced ingredient that further aids detoxification.* Medium chain triglycerides (MCTs) have been included as a healthy source of fat that is readily absorbed and utilized as energy by the body.* Care has been taken to select ingredients that are typically nonreactive in most individuals. ProtoClear's balanced proportions of protein, carbohydrates, and fats help to sustain energy levels during a detoxification program.*
