

Cytolog® Spray

Cytolog® is extracted from bovine colostrum, and contains a multitude of colostrum fractions, especially proline-rich-peptides. Cytolog® does not contain the larger milk proteins, and only about 3% lactose. Every batch of Cytolog® is tested to be free of antibiotics, bacteria, heavy metals and other contaminants.

Suggested Use

As a dietary supplement, 4 or 5 sprays orally and swallow, one or two times daily, or as directed by a healthcare practitioner.

Refrigerate after opening.
