Replenish Microflora with Fortify™ Optima®

Fortify Optima is a potent (35 billion CFUs) and diverse (14 strains) formula of probiotics for intestinal microflora.*

Why 14 probiotic strains?

- Like a fingerprint, each individual has a unique balance of strains in their microflora
- Fortify Optima provides a broad diversity of strains commonly found in the human digestive tract
- Each strain provides its own unique benefits

With NutraFlora® scFOS®

- Unique "short-chain" form of FOS
- Preferred food source for microflora
- Promotes microflora growth & colonization*
- More effective than other FOS forms

Importance of Microflora

The "friendly" bacteria of the intestinal tract are essential to good health because they:

- Secrete enzymes to aid proper digestion*
- Support immune health*

Stress, poor diet, age and changes in lifestyle can adversely affect microflora.
