USAGE: Take 1 vegetarian capsule 1 or 2 times per day with water. Or take as directed by your qualified healthcare professional. May be taken with food or on an empty stomach. **NOTE:** For immune-compromised individuals and children, please consult your healthcare professional before taking this product. **Saccharomyces Boulardii+MOS** contains the probiotic yeast *Saccharomyces boulardii*, which survives passage through stomach acid and into the intestinal tract.* This strain helps protect and maintain a normal intestinal microflora.* It also works to restore the normal intestinal microflora when possible disruptions may occur, such as during travel or the intake of certain medications.* MOS (MannanOligoSaccharides) is an oligosaccharide from the cell walls of *S. cerevisiae* that can discourage bacteria from adhering to the epithelial cells and reduce their proliferation.*

Saccharomyces Boulardii+MOS does not require refrigeration and can be stored at room temperature. Refrigeration will, however, extend the shelf life. Avoid temperatures above 77°F (25°C).

Supplement Facts

Serving Size 1 Capsule
Servings Per Container 30

	Amount Per Serving	% DV
<i>Saccharomyces boulardii</i> (an <i>S. cerevisiae</i> Strain)	5 Billion Viable Cells (Minimum)†	††
Bio-MOS® [Derived from <i>S. cerevisiae</i> , Source of MOS (MannanOligoSaccharides)]	200 mg	††

† Minimum 5 billion viable cells at time of consumption, under recommended storage conditions and within Best Used Before date.

†† Daily Value not established.
