

Buffered Vitamin C Powder

Cassava root source buffered vitamin C production includes minimal processing with one corn-derived ingredient, but it is generally well tolerated by corn-allergic individuals. It provides macrominerals calcium, magnesium and potassium carbonates which become mineral ascorbates in solution with a buffered, alkalinizing action (6.8 in water).

Suggested Use

As a dietary supplement, 1 heaping teaspoon or more in 8 to 12 ounces of liquid, between meals, or as directed by a healthcare practitioner. Two teaspoons supply approximately the recommended dietary allowance of magnesium.

These nutrients are of the highest quality and purity obtainable, are free of all common allergens (antigens), and do not contain preservatives, diluents, or artificial additives.

Appropriate for most food-sensitive individuals.
